ABOUT ME

Master's degree in Information Technology with a strong focus on frontend development, database design, and Power BI analytics. Through intensive academic projects at the Faculty of Technical Sciences (FTN) and hands-on experience in corporate environments, I have developed solid skills in modern JavaScript frameworks (Angular, React), SQL, and Oracle APEX databases, as well as in creating intuitive user interfaces. Motivated to work in a dynamic IT environment, I am committed to continuous learning and applying modern software architectures to solve real-world business problems.

SOFT SKILLS & PERSONAL ATTRIBUTES

- Professional Skills:

Analytical thinking, complex problem-solving, systematic workflow, high adaptability to new technologies.

- Social Skills:

Clear and professional communication, teamwork (experienced in Git/GitLab collaboration), leadership potential, and readiness for mentorship roles.

LANGUAGES

- English | Intermediate (B2)
- Italian | Elementary (A2)

DRIVER'S LICENSE

- Category B

WORK EXPERIENCE & INTERNSHIPS

Software Developer

Docus | 29.04.2025 – Present

- Actively participating in the development of desktop and web applications using Angular and Node.js.
- Implementing responsive and interactive frontend components and optimizing user experience (UX).
- Contributing to backend functionality development and working with Microsoft SQL databases (writing queries, management, and optimization).
- Mentor: Marko Bogdanović
- Key Takeaways / Skills Acquired: Working in a real-world development environment, full-stack mindset, team collaboration via Git.

Frontend programmer

Croonus | 01.08.2024 – 31.08.2024

- Contributed to the frontend development of an e-commerce clothing retail platform.
- Developed a modern, responsive user interface and implemented functional components aligned with contemporary web standards.
- Collaborated with the team to optimize website performance and enhance user experience (UX).
- Mentor: Željko Glišov
- Key Takeaways / Skills Acquired: Advanced proficiency in CSS/HTML and JavaScript structures, agile teamwork, and e-commerce solution optimization.

TECHNICAL SKILLS

- Web Technologies & Frontend: HTML5, CSS3, JavaScript (ES6), Angular / AngularJS, React.js, PHP (OOP), Bootstrap
- Databases & Analytics: MySQL, Microsoft SQL Server, Oracle APEX / Oracle DB, Firebase, Power BI, DAX
- Programming Languages: Java, Python, C, C++, C#, Kotlin
- Mobile Development: Flutter, Kotlin (Android)
- Tools & Cloud Platforms: GitHub, GitLab, Microsoft Azure
- Development Environments (IDEs): Visual Studio Code, Visual Studio, Eclipse
- Testing & Automation: JUnit, Selenium
- Design & CMS: Figma, Canva, WordPress, WooCommerce, SuiteCRM

COURSES &

CERTIFICATIONS

- Relational Database V8 – freeCodeCamp (May 2026)
- Legacy Responsive Web Design V8 – freeCodeCamp (March 2026)
- Microsoft Excel & Excel VBA Programming – Kamster d.o.o. (April / July 2025)
- SQL Programming – Kamster d.o.o. (April 2025)
- Microsoft Power BI – Kamster d.o.o. (December 2024)
- Adobe Dreamweaver – Academy Oxford (December 2021)

PROJECTS

- Power BI Data Analytics & Visualization – Developing interactive business reports, data modeling, and implementing DAX language to drive data-driven decision-making.
- E-commerce Platform in Azure Cloud – Building a WordPress/WooCommerce website integrated with a SuiteCRM system and hosted on the Microsoft Azure platform.
- Hospital Management System – Developing a 3-tier software solution with a distinct separation of presentation, business logic, and data layers.
- Database Modeling (Erwin) – Designing complex logical and physical data models using the erwin Data Modeler tool.
- Library Application – Developing a mobile application focused on user account tracking and inventory management.
- Online Flower Shop – Implementing a desktop application based on Object-Oriented Programming (OOP) principles in Java.
- Oracle APEX Application – End-to-end relational database design and web application development within the Oracle APEX environment.
- Video Rental System (Dynamics 365) – Developing a project using the AL language within the Microsoft Dynamics 365 Business Central platform.

EDUCATION

Master of Science (M.Sc.) in Information Technology

University of Kragujevac, Faculty of Technical Sciences | 2024 – 2025

- Focus: Web mining, advanced algorithms and modeling techniques, software quality management, Human-Computer Interaction (HCI).

Bachelor of Science (B.Sc.) in Information Technology

University of Kragujevac, Faculty of Technical Sciences | 2020 – 2024

- Focus: Object-Oriented Programming (OOP), databases, mobile and web application development, information systems administration.
